Introduction to the publication,
Archived publication: List – An overview of published veterinary products intended for pigeons and ornamental birds kept in cages (aviaries) as part of Pantex Holland product portfolio. 1 May 2026.
Detailed product descriptions are available in the PANTEX Product Handbook (in the product data sheets) and in publications on pigeon diseases on my website 'Pigeon Breeding': https://www.doskonaleniegolebir-ceram.pl/ and on the PANTEX HOLLAND website: https://www.pantex.net/.
All products offered by PANTEX are protected by patents. The labels on all PANTEX HOLLAND products feature HOLOGRAMS confirming their authenticity and quality.

Dear Breeders. Readers of my website.
With effect from 1 May 2026, Pantex Holland has acquired the Oropharma range of veterinary medicines for pigeons and ornamental birds from Versele-Laga. Consequently, Pantex Holland will be responsible for the sales, distribution, registration and technical support of this product range worldwide.
This strategic move strengthens Pantex Holland's position as a specialist partner in the field of veterinary medicines. It underlines Pantex Holland's clear strategic focus on strengthening the presence of Pantex Holland products in the pigeon and ornamental bird sector.

Dear Breeder: please note that, as before, these medicines may only be bought and sold through authorised veterinary wholesalers, pharmacies or licensed veterinary surgeons.
Information compiled on the basis of: Pantex Holland BV
ACTUAL LIST of PRODUCTS of PANTEX HOLLAND.
